Pollution Awareness Website

I created a website about pollution, including 4 paragraphs with different font sizes and colors, and 4 images related to the topic. The design highlights key environmental messages.

Pollution is a major environmental issue that contributes to climate change, affecting ecosystems, weather patterns, and human health

To combat pollution, governments and organizations are implementing strict regulations on industries to reduce emissions and promote the use of renewable energy sources such as solar and wind power

Individuals can contribute by adopting eco-friendly habits such as reducing plastic usage, conserving water, and choosing sustainable products.

EDUCATION AND AWARENESS ARE ESSENTIAL IN THE FIGHT AGAINST POLLUTION.

I'm Noot One of Them – Game Website

I created a website for the zombie game demo I'm Noot One of Them. The site presents the game concept, imagined storyline, characters, and future features. I used creativity to expand on the existing demo and show what the full game could become.

Personal Blog

This is a simple personal blog where users can read posts about my interests and hobbies.

About me

Dear reader,

My name is Maria, and I'm 16 years old. I live in Moinesti, a charming town where I'm currently studying at the Spiru Haret Theoretical High School. I'm someone who finds peace and joy in the simplest things, and I love to immerse myself in nature, painting, reading, and drawing.
